# KLUMPP

COATINGS

We add value to your surface

Klumpp's EXTREME MATTE UV Coatings provide the **look & touch** similar to oiled floors, with the **durability and resistance** of a full-fledged UV finish!

## We add value to your surface – for the manufacturer

### ✓ Easy application

- ✓ as topcoat with an applied quantity of 4-6 g/m<sup>2</sup>
- ✓ high stability of viscosity (no running thick – in all climate zones)
- ✓ no streaking but constant gloss level all-over the width of the roller
- ✓ setup alike standard UV-coating (open-pored finish)
- ✓ no additional roller coaters\*
- ✓ no additional UV-lamps\*

\*compared to a standard application line

### ✓ Selling Point

- ✓ EXTREME MATTE provides the look & feel similar to oiled floors, with the durability and resistance of a full-fledged UV finish!

# EXTREME MATTE

We add value to your surface

The following table makes it clear: EXTREME MATTE performs equal or even superior to standard UV cured coatings!

Property \ Surface	Klumpff Coatings			
	Extreme Matte	Standard Coating	UV-Oil	Natural Oil
Natural (matte) appearance	++ 100% natural or oiled look	-	++ oiled look	++ oiled look
Abrasion resistance	++	++	+	-
Chemical resistance	++	++	+	--
Clean & Care	++	++	+	-
Variety of colors	++	++	+	+-

## We add value to your surface – for the end customer

### ✓ Unique properties

- ✓ gloss effect like uncoated (> 4 sheen at 60° angle)
- ✓ open-pored effect like uncoated
- ✓ warm color effect like natural wood

### ✓ Outstanding durability

- ✓ Anti-Scratch Technology prevents from micro scratches as well as glossy patches

### ✓ Meets **eco INSTITUT** standards

- ✓ no VOC emissions (Volatile Organic Compounds)
- ✓ no Formaldehyde
- ✓ no heavy metals
- ✓ no Insecticides, Pesticides and Herbicides
- ✓ no Plasticizers (Phthalates) EN 71-3
