

Technical Data Sheet

Hydro Cleaner

Art. No.: 024-000-00755

General Info:

Hydro Cleaner is a neutral, water dilutable wax removing cleaning product for wood floors. Contents: less than 5% non-ionic tenside, water, alcohol, defoamer, perfumed oil. Dangerous Goods Classification does not apply according to GGVS/GGVE. VbF is also not applicable. Free of formaldehyde, heavy metals and insecticides. Keep out of the reach of children.

Strong adhesive dirt, basic cleaning, removal of old film layers:

Hydro Cleaner diluted in the wiping water mechanically supported with brushes or soft pads. Let stand for a few minutes. Do not flood the floor. Basic cleaning should not be done too often. Work in small sections. We recommend using pads when working larger sections (according to light abrasive, i.e., white, beige, green). Remove loose dirt before it dries. Wipe with clear water.

Partial spot removal:

Rubber heels marks, dried-on beverages, fats, lacquers, ink, and glue: Use damp cloth with cleaning fluid, spirit or isopropyl alcohol. First, test on an inconspicuous area.

Using Hydro Cleaner:

Dilute in cleaning water depending on degree of dirt; 1:2 to 1:10. 1 Litre of 10 Litre is enough for cleaning 100m².

Please do not use **Hydro cleaner**, if the lacquer layer is damaged or worn off to the raw wood. In because of irrupting water, the wood could get grey. In this case it is to be needed to recoat the surface right in time.

Consumption rate:

1:2 diluted: approx. 3 ltr. to 6 ltr. for 100 sqm.
1:10 diluted: approx. 1 ltr. to 10 ltr. for 100 sqm.

Shelf Life:

1 year; keep frost-free

Note:

Please note our actual material safety data sheet.

Klumpp Coatings manufactures premium quality finishing materials for use in controlled environments utilizing suitable application technologies. It is the user's responsibility to verify product compliance with all applicable regulations or permits before proceeding with use. The user must always pre-test finishing products to verify suitability to the desired use before proceeding with any application. Manufacturer makes no warranties, express or implied, including (but not limited to) warranties of merchantability and fitness for particular purposes. Manufacturer will not be liable for any incidental, consequential or special damages or losses derived, directly or indirectly, from or as a consequence of purchaser's use of this product. Performance data is based upon laboratory testing conducted by Klumpp Coatings as applied under ideal laboratory conditions. Since substrate, environment and application are all significant factors in actual product performance, this information should serve only as a general guide and customers should conduct appropriate performance testing on production substrate samples to verify suitability to the desired use.
