KLUMPP
COATINGS
We add value to your surface

Please feel free to join us at the upcoming SURFACES Las Vegas 2012 (24.- 26.01.2012), Shorelines Hall, Booth S7577

We add
value
to your
surface

Latest product innovations:

- Digital Printing** has opened up revolutionary possibilities in surface design for laminate floor and panel manufacturers
- Lifetime Coating** provides superior abrasion, scratch & impact resistance, thereby extending the life cycle of wood flooring no white marks, even at lower application amounts
- Natural Oil** in- & outdoor, easy to apply, fast drying, best protection, beautiful appearance, easy to maintain
- Extreme Matte** provides look & touch similar to oiled floors, with the durability and resistance of a full-fledged UV finish
- High Gloss (UV)** by (laser-) roller application with perfect flow, anti-scratch properties and even more than 90 sheen level
- Furniture UV Coatings** easy application, no waste, fast drying, immediate stacking, anti-scratch properties, low m²-costs, not inflammable, no VOC-emissions, environmental friendly
- PVC UV Coatings** improved resistance against (micro-) scratches & chemicals, reduction of PVC typical aging, protection against skin contact with plasticisers, easy to clean lotus-effect, adjustable optical & haptical appearance

Besides, Klumpp Coatings is offering a wide product range from standard to specialties, manufacturing surface solutions for the following fields:

Digital Printed Laminate

Direct Printed Laminate

Parquet
