

3D PRINT

Digital 3D structure
through application of a
colorless ink

EASY PROCESSING

- + Possible with single- and multi-pass printers
- + Integration of the 3D printer into an existing digital (color) printing line possible
- + Can be applied on heat sensitive substrates

TECHNICAL PROPERTIES

- + No limitations to the design of the surface structure
- + Synchronized structure and décor
- + Positive and negative structure
- + Unlimited depth of the structure
- + UV-system and 3D-ink represent a matched and approved Klumpp system
- + 3D structure can be very sharp/ accurate
- + Applicable on different substrates (HDF, MDF, Vinyl, WPC, etc.)

ADDED VALUE

- + Pleasant to the touch
- + Natural look of the surface
