

ULTIMATE SCRATCH GUARD

The ultimate scratch-resistant top coat offers decisive improvements in the surface hardness and scratch resistance of your floor!

EASY PROCESSING

- + A single application @ 8 g/m² is sufficient
- + Application only on last top coat roller coater
- + Can be applied on all common UV lines
- + Extremely stable and constant gloss all-over the surface

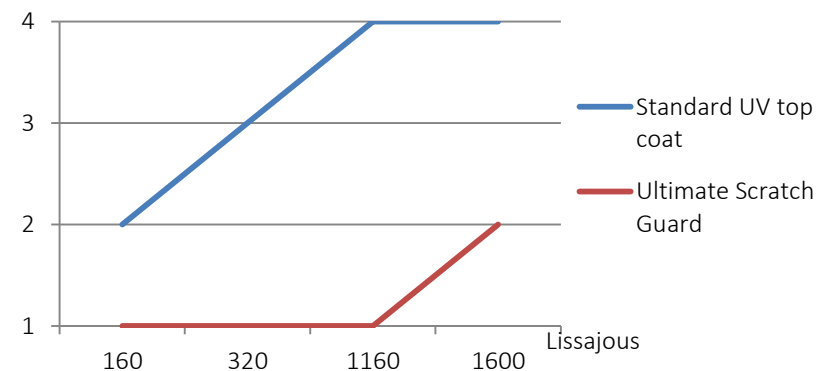

TECHNICAL PROPERTIES

- + Ultimate scratch resistance of the surface against (micro-) scratches (Martindale test) @ minimum of applied material
- + Classification according to DIN EN 16094 class MSR-A1 and MSR-B1, even @ >1000 Lissajous
- + High transparency, hence applicable also on dark wood species (thermo, exotic or smoked)
- + Range of suitable gloss levels from 5 up to 70 units @ 60° measuring angle

ADDED VALUE

- + The ideal choice for highest wear & tear in highly frequented areas
- + Long-lasting surface sealing
- + Easy-to-clean

MSR-B (DIN EN 16094 - Martindale)

Martindale abrasion and pilling tester
