

MICRO BEVEL

We add value to your surface ... even to the tiny surface of a micro bevel!

EASY PROCESSING

- + Universal application via different systems (vacuum coater, disc, Landwermann system)
- + Low set-up costs ("plug & play")
- + High opacity
- + High running stability
- + No clogging of the filter
- + Easy-to-clean

TECHNICAL PROPERTIES

- + Color adjustment to the base color of the décor
- + High filling properties with only one application
- + High chemical resistance
- + High water-resistance in the bevel
- + Available in multiple colors

ADDED VALUE

- + Emphasizes the character of a deck flooring
- + Camouflaging the v-cut of the décor
- + Protecting the substrate from water ingress and swelling
